Lameladivetro (Theappleofglass) is a non-profit international cultural association operating for promoting the arts, reclaiming and protecting the historical and the environmental goods and safeguarding the popular traditions. For Lameladivetro embracing the world is necessary for creating a cultural twinning beyond the frontiers, aiming at contributing to the building of a fraternity in name of art, knowledge and reciprocal respect. For this reason, besides the representatives of the different nationalities already present in the association, Lameladivetro intends to create an international net for constituting other similar associations, independent but ready to co-operate.

LeoniArt Project is an International Exhibition of Visionary Art founded by the Italian artist Corrado Leoni in 2017. The project was born as a last process of a vision of the art, where its leads can share their dreamlike emotions in a worldwide stage free from material and spiritual borders. While waiting to launch the third exhibition of the main project, some side events were born, called "LeoniArt Drops," a glimpse of visionary art, made up of small exhibits and performances which lead the viewer's up to the next exhibition of the LeoniArt Project.

Today there are 50 members in the community, coming from 31 different countries.

In Deep Blue we have 10 artists from LeoniArt Project and 5 new ones from France, Germany, Serbia and Italy.

Map with the indications of the origin of the artists.

Blue: we see it when we look at the dark through the light, blue is the universe through the light of the atmosphere. it is the color that invites us to enter our depths to be reborn with new light. Blue is the depth of our shadow zone, blue our dreams, blue the deep impulses, blue the unaware that becomes conscious when penetrated by the light ... as promised.

(Barbara Papini, flowertherapist of LeoniArt Project)

Main exhibition

«Deep Blue» born as celebration of the old gallery located in Genoa, which in 1963 hosted a great exhibition with the participation of 15 famous artists, such as Marc Chagall, Lucio Fontana, Victor Vasarely. It was called «Galleria del Deposito».

In a play on words (Dep as Deposito, Deep as intense tone of blue), this new exhibition forms a first step of events that will go ahead until 2023, with the official celebration of the 60th anniversary of the old gallery.

Now other 15 artists, coming from different countries, expose their artworks at the wonderful rooms of S.Maria di Castello, located in the historical center of Genoa.
